Colds from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified cod liver oil, which is pleasant to take. Creomulsion is a medical discovery with two-fold action: it soothes and builds the inflamed membrane and builds the germ growth.

Of the largest amounts to be supplied by high medical authorities as one of the greatest healing agencies for colds, coughs and bronchitis. Creomulsion contains, in addition to cod liver oil, other healing elements which soothe and heal the inflamed membrane and stop the irritation, while the cod liver oil in the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germ.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and other forms of the respiratory system, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

KILLER'S AGE, SANITY, PARAMOUNT QUESTIONS

Eastland, Tex., Nov. 7.—AP.—The age of the Thompson youth accused of killing two oil field workers "just to see them killed," appeared today to be the paramount issue in his second trial on a charge of first degree murder.

Counsel for Thompson, who once was sentenced to death for the killing of Lucien and Leon Shook, brothers, but was a new trial on appeal, have indicated they will attempt to show the youth was not 17 years old when the crime was committed and should be dealt with leniently.

Thompson gained steadily around the courtroom during the arguments yesterday, occasionally muttering to himself. His sanity, by a court ruling, also is an issue in the trial.

AKRON, O.—A little gold rivet bigger than a collar button will be given today into the hands of Michigan's newest prospective oil field, on the outskirts of Mantoloking. The well was to be drilled by the Chicago prospecting firm of Tackles and Davis. Approximately 10,000 acres of land in Piquette and Stensich Townships have been leased by this company for test drills.

The probability of an oil formation here was ascertained by tests made in abandoned salt wells. Tests showed, according to Evan J. Tackles, geologist, that an anticline or oil bearing rock fold, probably as large as those in the Pleasant and Muskegon oil fields, existed here.

Two other wells are to be drilled soon. If all is found, just before it will be at a depth of about 1,000 feet, under 600 feet of "drift" deposits left by the Ice-age glaciers.

Fur Trimmed Gown

By MME. LISBETH

It has been some time since for her I have used to trim coats as extensively as it is this season. Day-time frocks and evening models alike show effective touches of fur trimming.

This delightful evening gown is fashioned of black tulle. It employs the high waistline, suggesting the Empire mode. Black fur is applied across the back of the skirt, halfway down its length, and across the front just below the knees. The hair of the skirt is uneven, which length in front, and trailing in the back.

The earrings and wristlet are reproductions of court jewelry.

Could Not Eat a Meal Without Distress—New Medicine Wins Another Fine Triumph

MR. HENRY GEDDES

"For some time I suffered intense distress from a very disordered stomach," said Mr. Henry Geddes, 1231 Cass Avenue, Grand Rapids, Mich. "Every meal caused suffering and I could not eat a bite of food without having indigestion pains and gas bloating. The food formed a heavy mass in the pit of my stomach and always brought on smothering spells. Found it impossible to get sound, refreshing sleep."

"Konjola marked the turning point of my health. Day by day the different ailments became less severe and then, like magic, they disappeared. Today I eat what I please, enjoy the food and digest it as nature intends. Sound, refreshing sleep is mine. I owe this all to Konjola and I praise it with all my heart and soul."

OVER 12 MILLION JARS USED YEARLY

the JOY of LIVING

Your joy may depend upon rich, red blood cells.

A HEALTHY body is vigorous, strong and sound. It is man and woman's greatest asset. It demands that the red blood cells shall not be decreased in number. The red blood cells are its workers—1,000,000 to the cubic millimeter. It is dangerous to let the blood count remain below normal.

With an increase in the red blood cells, you will be on the right road to health. This is Nature's way to body power and to clear skin.

You owe it to yourself and family to give S.S.S. a trial. It promotes healthy body building. It helps Nature build rich, red blood. For more than 100 years S.S.S. has been helping people regain and retain their strength and charm. It is made from strictly fresh vegetable drugs and is easy to assimilate. Pleasant to take. Thousands of users have testified to its benefits in unsolicited letters of gratitude.

SSS

You will be delighted with S.S.S. blood-building and tonic effects. Take at mealtime. At all drug stores in two sizes. Ask for the larger size. It is more economical.

VARICOSE VEINS CAN NOW BE SAFELY REDUCED IN YOUR HOME

Why is it people are always so repulsed by unsightly Varicose Veins? Merely because a physical defect is always offending and don't have to admit there's nothing more distressing than to see a beautiful woman with shapely legs disfigured with thick, bulging veins and bunches!

But it's her own fault because she's afraid. And effective way in which Moore's Emerald Oil has been stopping the pain of Varicose Veins and reducing the swollen and most swollen veins to normal size. It's the only way without the slightest inconvenience—no nothing short of magical.

Get a 2 ounce bottle of Emerald Oil this very day at your druggist—you'll soon be able to wear the thinnest stockings, fashionably short skirts, and walking suit without having anyone criticize your veined legs!

A doctor from London writes—"I had Varicose Veins so bad I could not even walk in comfort. The doctor said I had to be operated on but I read about Emerald Oil and tried it and in 3 days time it freed me up—one bottle did the work."

MR. AND MRS. CLAUDE GOTT, Mrs. Rachel Tuttle and Mrs. Addie Fells spent Sunday with relatives at Norwalk.

MR. AND MRS. ARTHUR GOTT and baby, Waterford, spent Wednesday with her cousin, Mrs. Ralph Gott.

MR. AND MRS. ERNEST SPRAGUE, Rochester, New York, have been spending several days with their cousin and husband, Mr. and Mrs. William E. Gott.

N. P. SMITH, Romulus, is working at the home of Mrs. Carrie Waters, Robert Nelson, who was ill last week, is able to attend school this week.

MRS. JULIA GARRISON and daughter, Lucile, Catherine and Dorothy, were guests Sunday at the Stanley Savitski home. Callers Sunday at the Walters.

4-H CLUB PRESENTS COMEDY IN TWO ACTS

"System," a comedy in two acts, was presented by the 4-H Club of Lincoln Consolidated School in the Lincoln Auditorium, Wednesday.

Nate Hobbs, a successful farmer, had never done anything by a system. His daughter, Nancy, kept his books, but he wanted a system, so he asked him to write a system. Dan Edwards, a friend of the family, was running for mayor in a nearby city, and Mr. Hobbs was one of his most ardent voters.

One day while in Dan's office, the messenger boy brought in an old-fashioned machine which had been discarded. Mr. Hobbs said that he would buy it and get his money ready for it, but Dan said that according to the system he could not take the money, but Mr. Hobbs would have to take his money to the city treasurer. After a very discouraging time Mr. Hobbs got his adding machine, but system had taken very much time and the adding machine cost him \$10 more.

Finally he re-negotiated that system. The only way to make a success of anything.

One day Talladay played the part of Mr. Hobbs very successfully and have the audience many laughs.

His wife was played by Ruth Wardle. She was always considered him because he was her "father," Nancy, anything she wanted. The pretty thing got the system, was played by Margaret Becking.

Donald Heart very successfully interpreted the part of the city clerk who was running for mayor.

John Becking was a very good city treasurer and John Steiner acted his part very well at the tax collector and also the part of Mr. Hobbs' hired man, Jesse Hennes appeared as Mr. Hobbs.

—Margaret Lamkin.

ROOSEVELT ROOM GIVES ASSEMBLY

LETTERS FROM ROOSEVELT'S DIARY: STORY OF HIS LIFE TOLD

Roosevelt Room gave a very interesting assembly on the life of Theodore Roosevelt.

When he was a small boy of ten he kept a diary. Some of the boys and girls read from the pages of this book. The articles told how he suffered from asthma when he was young.

The boys and girls also read some letters when Mr. Roosevelt wrote to his own boys and girls one time when he was in Texas.

The pictures of the Roosevelt draws were also very interesting.

—Geraldine Fuller, Washington Room.

FORD SUIT PATTERN

Mr. Clemens, Miss North, the following files of the famous suit of Henry Ford, which is a Chicago pattern for damages, when that publication referred to Ford as an anarchist and cheat, resulted in a favorable verdict for Ford, and for which he was awarded damages of \$100,000.

At the time he was arrested in the office of County Clerk to A. Harting, the suit filed in 1918 will be used as a pattern for a motion to try the case.

It is interesting to note that the suit filed in 1918 will be used as a pattern for a motion to try the case.

ACTIVITIES OF GENERAL INTEREST CONCERNING
FACULTY MEMBERS AND STUDENTS

DOCTOR, MOTHER EXPLAINS MANY VITAL PROBLEMS

Dr. Edith Hale Swift, New York City, who is sent out to colleges and universities of the country by the American Social Hygiene Association, is making many new friends at Normal College this week. Wise and motherly, and with much understanding consideration, she has explained to young men and women the problems of sex life, and is a mother herself—she has added to her list of friends many of the students of Normal College this week. Wise and motherly, and with much understanding consideration, she has explained to young men and women the problems of sex life, and is a mother herself—she has added to her list of friends many of the students of Normal College this week.

Wednesday morning at 9 o'clock in Pease Auditorium, Dr. Swift talked to the women students of Normal College. She was the guest of honor at the assembly, and at 11, she talked to the male students. For both assemblies she used the same general subjects, with the presentation of each subject especially to the students to whom she spoke. At 4 o'clock in the afternoon, in the Little Theatre in the old Main Building, Dr. Swift talked to the students who will graduate from Normal this year. Social Problems they will and be confronted with, often in their teaching experience. At 7:30, she spoke briefly to leaders of campus groups—students, men and women. At 8:30, she spoke to the students of Normal College, who will be in the office of the dean of women to day, and which she herself will visit to answer in another meeting this evening.

This morning, Dr. Swift talked with freshmen girls, and with other groups at different hours during the day, on subjects as "Social Problems," "Your Sex Problems," and the like.

"PEACE DINNER" WILL BE MONDAY

One of the most significant of social events on the Normal Campus this fall will be the Peace Dinner, at Starkweather Hall, Monday, November 11. It is at 6:30 with guests at elaborate program of special music and speaking planned.

Miss Helen Beason, Detroit, is to be the toastmaster, and the main speech will be by Miss E. E. Beason, professor of English at Normal College, whose subject will be "Peace in the World." John Dempsey, this city, but native of South America, and Warren Wood, Detroit, will play their guitars; a group of students will sing a "peace anthem," and there will be other entertainment arranged by the International Club.

PUBLIC BLAMED FOR SPORT ILLS

DR. RUTHVEN SAYS EDUCATION SOLUTION OF INTERCOLLEGIATE ATHLETICS

Ann Arbor, Mich., Nov. 7.—Dr. Alexander G. Ruthven, president of University of Michigan, in commenting on allegations of unethical exhibition made in a recent report of the Carnegie Foundation, states that the fault, if there is one, is not in present conditions in athletics, but in the public attitude toward them.

"The care for the present is not more rules, but education of the alumni and public generally is; a saner attitude toward intercollegiate athletic relations," he says.

Pointing out that Michigan and other universities are in a transitional stage between worse conditions and a better, he says, "We are not magnifying the place of athletics among us. On the other hand we cannot deny the existence of collegiate athletics nor the pressure from enthusiastic alumni and others, which is largely responsible for the present conditions. This is, we believe, about as sane; but even at its height we do not think there is any justice in refusing to admit to the university an athlete because he is an athlete."
